

# Environmental Statement

Niko Coatings Limited's Environmental statement is to conduct all our business in a legal, ethical and responsible manner.

We recognise the importance to protect our environment and to help ensure the long-term sustainable growth of Niko Coatings Limited, through the protection of our employees, the people working within our supply chains, and the localities in which we operate. We must ensure that any business decisions consider the effect on the environment, and that any impacts are appropriately addressed and sufficiently mitigated.

At Niko Coatings Limited we are committed to ensuring the efficient use of our resources by ensuring we achieve more with less waste by operating and upgrading our equipment and using new technologies that use fewer resources. We are in the business of manufacturing; therefore, we must address the environmental impacts of our products and our operations and support our customers and suppliers to do the same.

Operating on a continuous improvement basis we are always looking to reduce our environment impact and we are actively working on the following opportunities:

## Our key targets are:

- 1, Reduce our waste to landfill by 35 tons in year 2024 to 2025
- 2, Increase the recycling of our customers waste product by an extra 200 tons in 2024.
- 3, Reduce energy consumption by installing high efficiency electrical motors, changing our mixing method and focused improvement on machine Up time with the aim to reduce our global energy emissions by 1% in 2024
- 4, Introduction of metal returnable bins for collection of waste from customers for recycling removing unnecessary "single use" waste packaging
- 5, Design products with minimal waste and recycling methods included, and by adopting returnable packing to reduce adverse environmental impacts in production and at end of life.
- 6, Developing new products with lower VOC emissions and environmental impact to replace the current PVC materials used in the construction industry and switching to lower impact oils and lubricants on our heavy layer products to reduce their environmental impact
- 7, Empowering our employee's by ensuring they have the correct tools and knowledge and understanding appropriate to their environmental responsibilities and are aware of actions they can take to reduce their impacts.

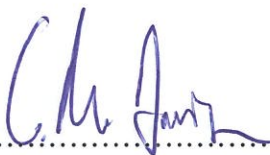

Environmental statement continued...

8, We continue to develop our products to ensure they are within the requirements of REACH, UK REACH and SVHC requirements and use the international material Data system (IMDS) for our customers to allow our product materials to be added for the end of vehicle life register

These commitments are upheld by the Niko Coatings Limited Board who are committed to using its technology, people and influence to be part of the shift to a more sustainable future.

We all have an individual and collective responsibility to ensure that Niko Coatings Limited contributes to the protection of the environment; **"it is simply the right thing to do"**.

This policy statement shall be regularly reviewed during our Management Review process.
